

Technical Data Sheet

STAR-COOL ORGANIC COOL-ANT -25°C Universal Automotive Coolant All Vehicles

PRODUCT INFORMATION

Cool-Ant is a premium quality longlife automotive coolant designed to protect all engines from overheating. It is safe to use in all engine types and mixes with all other standard antifreeze/coolants. It is suitable for use in all vehicles including Cars, Vans, Buses and Trucks. It offers protection from -25°C to >115°C for up to 2 years. Do Not Dilute, Use As Is.

COOL-ANT is a Green ready to use automotive Coolant / Antifreeze designed to protect all engines types. Manufactured in Europe it is Borate, Nitrite, Nitrate, Phosphate, Amine and Silicate free, ensuring consistent longlife performance. This mono- ethylene/glycol (MEG)coolant is designed to keep engines cool and protect them from damage caused by corrosion and overheating. Cooling systems should be flushed and refilled every 2 years. Please ensure product specifications match vehicle requirements before use.

PERFORMANCE LEVEL

BS6580:2010 -25°C, AFNOR NFR 15-601, ASTM D3306 / D4985, VW G-11.
JASO K2234, MAN 324-NF, MB 325, Toyota, Ford, Nissan

Technical Properties

Test	Method	Typical Values
Appearance	Visual	Clear and Bright
Colour	---	GREEN
Density @ 15 °C (g/m ³)	ASTM D 4052	1.0604
Freezing Point °C	ASTM D1177	-24

Ready to use, do not add water.

Health & Safety Please refer to the relevant health & safety data sheet, a copy of which is freely available to all our customers

The specifications above are typical but, may be changed without notice, always consult owner's manual before use. Values are indicative of

standard test values and may change in line with industry norms. No warrantee is expressed or implied.
